

# Multi Master™ Wet/Dry Vacuum System

Multi Master™ can be easily transformed into a high-performance Dispense-and-Vac system, providing an extremely effective, low-cost solution to cleaning and maintaining floors.

Simply add the optional Multi Master™ Wet/Dry Vacuum Sys. to the Trolley-Bucket and you're ready to go. Just open the spigot and apply fresh cleaning solution to the floor, spread and lightly brush into grout lines, and then vacuum the soils and liquid away. Floors are clean and dry. The process is significantly better, faster and safer than cleaning with a mop.

## PERFECT FOR:

Food Service  
Convenience Stores  
Healthcare  
Education  
Sports/Fitness  
Retail

Daily Floor Cleaning  
Degreasing Kitchens  
Cleaning Restrooms  
Stripping Waxed Floors  
Spill Pick-up  
Flood Pick-up

Two-piece Lightweight Aluminum Vacuum Wand

Industry's Longest Vacuum Hose

15 Ft. Retractable Electrical Cord

Easy Flush Dump Hose

11.5 Gallon Vacuum Recovery Tank

10 Gallon Fresh Solution Tank

One Tool Lets You Brush Then Simply Flip to Vacuum  
(multiple sizes available)

Variable Flow Spigot Dispenses Fresh Solution

## HIGHLIGHTS

- Rapid drying reduces slip and fall risk
- Reduces chemical costs up to 70% while producing better results.
- Powerful vacuum combined with top quality Squeegee Head Brush thoroughly removes soils and contaminants.
- Cleaning solution always stays fresh because soiled water is vacuumed into a separate tank.
- Built-in dwell time improves cleaning results.
- Very easy to learn and use. Even a first-time user can achieve great results.
- Simply add optional pump system to convert to a Spray-and-Vac system.
- Empties easily into a toilet or slop sink.
- Low cost is often below capital expenditure thresholds.

# Multi Master™ Wet/Dry Vacuum System

Floors can be difficult and expensive to maintain. If not cared for properly, they not only become unsightly, they can drive customers away, cause slip and fall accidents, and even become a health hazard. Unfortunately, traditional mops make matters worse – especially for grouted floors. In fact, during mopping, grout lines actually “squeegee” soil and soap scum from mops. When the water evaporates, soils, mineral deposits, soap scum and potentially harmful biopollutants are left to penetrate and coat the porous grout. Grout lines that started out light gray or white soon become stained and darkened.

**Multi Master™ Wet/Dry Vacuum System offers a low cost solution to this expensive problem.**

## Multi Master™ Wet/Dry Vacuum

- Multi Master™ Vacuum
- Trolley-Bucket

### Wet/Dry Vacuum Specifications:

Vac Tank	11.5 Gallons (43,5 l)
Dump/Drain Hose	22 inches (56 cm) long
Vac Tank Cleanout	100% via Dump/Drain Hose
Vac CFM	60 cfm (1700 l/min)
Blow Feature	85 mph (137 km/h)
Vac Motor Lift	114 inches - dead head (290 cm)

## Drop The Mop

Dispense fresh solution through throttle spigot on the rear of the Trolley-Bucket.

Brush the floors with the bristled side of the Squeegee Head Brush.

Transition to vacuuming with a quick flip of the Squeegee Head Brush.

Divide and conquer. Breaks apart to support multiple simultaneous activities.
